TECHNICAL SKILL & EXPARTIES

- Data cleaning, processing (**Excel, SQL, R, Python (NumPy, Pandas, scikit-learn, TensorFlow**)
- Visualization (Python (**Matplotlib, Seaborn, Plotly) Power BI, Tableau**)
- Trend analysis and forecasting for business growth (**ARIMA, SARIMA, VAR**)
- KPI development and performance tracking (**Google Analytics**), CRM tools (**Salesforce, HubSpot**)
- E-commerce & Customer Analytics (**Google Analytics, Python (scikit-learn for clustering**)
- Optimization
- Machine learning and AI (**Regression, Logistic Regression, Decision Tree, KNN, K-Means, Random Forest, ANN, CNN, LSTM, RCNN**)

LANGUAGE SKILLS

- **Bengali (Native)**
- **English (Fluent)**
- **Hindi (Beginner)**
- **Danish (Beginner)**

ABOUT ME

Data is like a puzzle—when analyzed correctly, it reveals powerful insights that drive real impact. With a bachelor's degree in Statistics and a passion for transforming raw data into strategic decisions, I founded Meow Mesh, an e-commerce startup addressing pet care challenges. This entrepreneurial journey ignited my passion for business problem-solving, shifting my career focus toward understanding and addressing real-world challenges. To strengthen my analytical and strategic skills, I am pursuing an M.Sc. in Eng. in Business Analytics at DTU. Combining analytical expertise with entrepreneurial experience, I thrive on identifying challenges, uncovering insights, and implementing data-driven solutions that make a difference. I am now seeking a **student job** alongside my studies to apply my skills in a dynamic environment.

EDUCATION

M. Sc Eng. in Business Analytics, 2025 – Ongoing
Technical University of Denmark (DTU)
B. Sc. (Hon's) in Statistics, 2023 CGPA: 3.806 (95.15%) out of 4
Hajee Mohammad Danesh Science & Technology University, Dinajpur

WORK EXPERIENCE

- **Data Analyst & Founder member, Meow Mesh** (https://meowmesh.com/) (04/07/24 -20/01/25)
  - Analyzed sales data and customer behavior to optimize marketing strategies.
  - Led a team of 5 to develop business strategies and improve operational efficiency.
  - Implemented customer segmentation models to personalized marketing campaigns.
  - Tracked website traffic, conversion rates, and customer engagement metrics to drive continuous improvements.

- **Junior Data Analyst, Debonair Padding & Quilting Solution Ltd** (02/12/23 - 30/06/25)
  - Analyzed sales and production data to identify trends and optimize export strategies.
  - Conducted research on global fashion trends and competitor pricing to support decision-making.
  - Developed automated reports and dashboards to track key performance metrics.
  - Worked closely with cross-functional teams, including production, sales, and logistics, to enhance operational efficiency.
